

规格:

看门狗		0.255秒/分钟通过系统软件实现	
显示			
显示屏	10.1"	亮度	
分辨率	1280*800	对比度	
触摸屏	12.1英寸电容式触摸屏		
操作系统			
I/O接口			
USB	4*USB2.0	串口	1
1000M网络接口	SIM卡	带4G/5G可选	
GPIO	12VDC	占用一个DB25接口	
(可选2PIN凤凰端子)		电源规格	
		电源输入	标配12V/5A航空头适配器

The image is a severely corrupted and glitched version of a photograph. It depicts a building facade, possibly a train station or industrial structure, but the details are lost to digital noise. The image is characterized by heavy horizontal banding, vertical streaks of various colors (red, green, blue, yellow), and a general loss of coherent shape. A solid black horizontal bar runs across the bottom third of the image. The overall effect is one of extreme digital distortion.
